LOCAL PHYSICAL THERAPY SERVICES PAID THROUGH VETERANS ADMINISTRATION

Niles, OH – September 21, 2015 – Integrated Physical Therapy Services, Inc. at 650 Youngstown-Warren Road in Niles and 700 West Liberty Street in Hubbard announces the Veterans Administration now pays for overall healthcare, including local physical therapy services. This means veterans and their spouses who were once required to travel to a VA clinic for treatment can now undergo physical therapy at Integrated Physical Therapy Services – and receive their VA benefits for the services.

To qualify for local physical therapy services a Veteran must have been enrolled in VA health care on or before August 1, 2014, or be eligible to enroll as a recently discharged combat Veteran within 5 years of separation. Additionally, a Veteran must also meet at least one of the following criteria. 1. The Veteran is told by his/her local VA medical facility that he/she will need to wait more than 30 days for an appointment from the date clinically determined by his/her physician. 2. The Veteran’s current residence is more than 40 miles driving distance from the closest VA health care facility. 3. The Veteran resides in a location other than Guam, American Samoa, or the Republic of the Philippines and needs to travel by air, boat or ferry to the VA medical facility closest to his/her home. 4. The Veteran faces an unusual or excessive burden in traveling to a VA medical facility based on geographic challenges, environmental factors or a medical condition. 5. The Veteran resides in a State without a full-service VA medical facility that provides hospital care, emergency services and surgical care having a surgical complexity of standard and resides more than 20 miles from such a VA facility.

“Our doors are always open to veterans and their spouses who need physical therapy services,” says Ed Fabian, Owner and Operator of Integrated Physical Therapy Services, Inc. “The fact that the VA is now providing benefits for individuals no matter where they receive their treatment makes it a lot more convenient for vets to get the care they need.”

Integrated Physical Therapy Services, Inc. is a physical therapy facility with locations in Niles and Hubbard. Their specialized rehabilitation programs treat various types of ailments, including orthopedic conditions, geriatric conditions, balancing problems, work-related injuries and sports-related injuries. In addition to physical therapy, IPTS offers speech therapy, aquatic therapy and massage therapy to the public. Walk-ins are always welcome.
